Group W and a large portion of Tribune's systems are for sale. Cox basic subscribers includes 301,808 tiered subscribers. Kohlberg Kravis Roberts & Co. has bought Wometco and Storer, which combined would given KKR ownership over 1,833,013 basic subscribers, 1,612,122 pay subscribers with 3,246,652 homes passed. Some systems will have to be sold, however, because of crossownership restrictions (see page 40). Cablecom has been bought by the Washington Post. All figures are for the end of September or October—depending upon each company's accounting period—unless otherwise noted.

[1] AT&T plans to place Telstar 303, which was launched last month, into orbit at 125 degrees between now and mid-August and move Comstar IV at 127 degrees to 76 degrees to replace Comstar III, which is being retired.

[2] Under an agreement announced two weeks ago, MCI will acquire SBS I, SBS II and SBS III. IBM, majority owner of SBS, will become sole owner of SBS IV as well as SBS V and SBS VI, set for launch in 1986 and 1987, respectively.

[3] Westar II, now long passed its design life, will be retired this month. After Westar IV is launched in March 1986, Western Union plans to locate it at 91 degrees and move Westar III, now at 91 degrees, to 78.5 degrees in place of Westar II.

Cable programing services at a glance

The following chart shows the latest subscriber counts, except where noted, for the basic and pay cable programers. The largest percentage increases over the past 18 months occurred below the top three basic services, suggesting growth among them—ESPN, WTBS and Cable News Network—is reaching the saturation point. Among those showing the biggest gains are Black Entertainment Television (90.6%), Arts & Entertainment (66.7%). The Weather Channel (58.3%), CNN Headline News (57.3%) and The Nashville Network (51.6%). The Odyssey Network, a music video network, and SIN, a Spanish-language network, are not included on the chart because they are carried on broadcast stations as well as cable systems and do not break out their cable subscribership. Odyssey reports 55.1 million broadcast and cable households, while SIN reports 36.9 million.

Radio and Television Audiences

Radio and Television were in more U.S. homes than ever before as 1985 approached.

Radio. The Radio Advertising Bureau estimated that 86.7 million U.S. homes, 99.0%, were radio-equipped as of Jan. 1, 1985.

Radio Sets. The number of working-order radio sets in the U.S. totaled 489.0 million in January 1984, according to estimates by the Radio Advertising Bureau. RAB estimated that 362.3 million of these were home and personal radio sets and 125.7 million were out-of-home receivers.

Television. A total of 85.9 million homes, or 98% of all U.S. homes (excluding Alaska and Hawaii) were TV equipped as of January 1, 1986, according to A.C. Nielsen Company.

Color TV. Homes equipped with color TV sets totaled 80.08 million, or 91% of all TV homes, as of Jan. 1, 1986, according to A.C. Nielsen Company estimates.

Viewing and Listening. The extent to which radio and television sets were used as indicated in the tables that follow. The television figures were furnished by the Nielsen company and its Nielsen Television Index (NTI). The radio data came from RAB and other sources as noted.

*Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based on average value as published by the U.S. Department of Commerce, which ios F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the U.S. and insurance.
